

OUR TECHNICAL EXPERTISE, ALWAYS WITH YOU.

PRODUCT & SYSTEM FINDER.

Have I specified the
most efficient system
with the best finish to my
bus builder customer?

**I hope I won't lose this
account.**

Do I need to flip through
all the TDSs to find the
best anti-corrosive
primer?

**I don't have time for
that!**

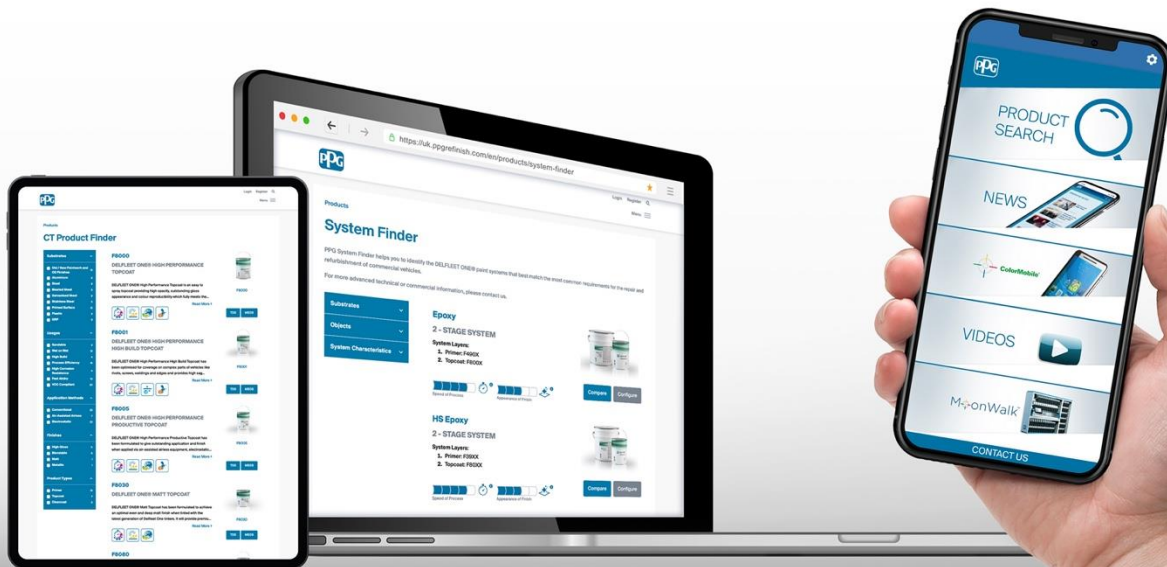

I am unsure what's the
best surface
pretreatment process on
aluminum.

I will call PPG.

OUR TECHNICAL EXPERTISE, ALWAYS WITH YOU.

2-Stage: Plastic Adhesion Promoter	 D820			 Speed of Process	 Appearance of Finish	 Fast Air Dry	 One Visit	

CUSTOMER TESTIMONIALS

Early users (General Refinish distributors & specialised CT bodyshops)

“Product & System Finder is easy to use. We are a CT/LIC-specialised bodyshop with a wide variety of paint processes in use, so this tool allows us to check key information quickly and to support new painters with the onboarding process.”

“The search result URLs can be shared with my customers which increases the credibility of the information as it comes directly from the manufacturer.”

“Product & System Finder will help me and my team to better understand the value propositions of the products, which in the end improves our recommendations to customers.”
